

The background of the cover features a microscopic view of various pathogens, including several spherical viruses with prominent surface spikes and some elongated, rod-like structures. These are rendered in a light purple, semi-transparent style against a darker purple background. The overall design is modern and scientific, with geometric shapes and a color palette of various shades of purple.

<i>Dedication</i> .....	<i>v</i>
<i>Preface</i> .....	<i>vii</i>

## **A: Viral Diseases**

1. Rabies.....	1
2. Avian Influenza or Birdflu.....	39
3. Swine Influenza or Swineflu .....	59
4. Dengue .....	73
5. Chikungunya .....	93
6. Japanese Encephalitis .....	101
7. Hendra .....	109
8. Nipah Virus Infections in Humans and Pigs.....	115
9. Hantavirus Infections .....	127
10. Marburg and Ebola Virus Disease .....	137
11. Crimean Congo Hemorrhagic Fever (CCHF).....	145

## **B: Bacterial Diseases**

12. Anthrax .....	155
13. Tuberculosis .....	163
14. Brucellosis .....	181
15. Colibacillosis .....	195
16. Glanders .....	205
17. Leptospirosis .....	215

18. Listeriosis.....235

19. Salmonellosis (Paratyphoid) .....245

20. Tetanus (Lock jaw) .....253

21. Q fever .....261

**Readership :** The book will be useful in virology, veterinary microbiology, veterinary pathology and diagnostics, food microbiology, food borne diseases and would be beneficial to all veterinarians as a whole.

# zoonotic diseases

The book is written in a very simple and lucid manner so that everybody can read and easily understand it properly. It contains two sections:

- viral diseases and bacterial diseases with lot of recent references.
- book will provide detailed and up to date information of all the zoonotic diseases of bacterial and viral origins affecting human and animal health globally.
- Finally, all can enrich their knowledge on zoonotic diseases from the book and can clarify any doubts and concepts very easily and confidently.

The book is useful for scientists, teachers, students, officers, diagnosticians, laboratory technicians, public health professionals and medical personnel associated directly or indirectly with research, teaching, training, extension, diagnosis, epidemiology and control of zoonotic and food borne diseases.

**S.Nandi** has been associated with teaching Veterinary Virology in the Deemed University, Indian Veterinary Research Institute for last 21 years.
